You came here for some really cool CSS text effects that will help you make amazing web typography for your websites. In order to successfully give a website a look that is more visually impressive, designers always concentrate on placing more emphasis upon typography that is both stylish and neat in nature.

CSS Text Effects: 116 Cool Examples That You Can Download

You can create image links that allow users who click the image to link to content in another location. For example, if you include your company logo in a source document, you can define a link for the logo so that when users click the logo, they link to your company home page.

ePublisher Platform Documentation - WebWorks

A web style sheet is a form of separation of presentation and content for web design in which the markup (i.e., HTML or XHTML) of a webpage contains the page's semantic content and structure, but does not define its visual layout (style). Instead, the style is defined in an external style sheet file using a style sheet language such as CSS or XSLT. This design approach is identified as a ...

Style sheet (web development) - Wikipedia

Farewell from Patternry. Dear Customers, After 9 years of building and supporting Patternry, we have decided to shut down the service. We have spent a lot of time and effort during the years to make Patternry fit our customers needs.
